Standard ERP

integration with **CyberSource®** *the power of payment*

Process and automate your online payment operations

Easy
Manage all transactions in one place.

Safe
Process payments for all major banks and secure payments for all transactions. Detect and reduce fraudulent transactions.

Customer friendly
Remove obstacles to making payments in your webshop and receive money quicker from customers.

Standard ERP

Standard ERP offers an intuitive suite of business management tools for reconciling accounts, processing orders, inventory, customer relationship management (CRM), reporting and more.

Designed for businesses of all sizes in many industries, Standard ERP delivers a high level of integration not only between its core component elements, but also with a variety of third-party service providers.

Standard ERP provides a series of industry-specific modules which are fully integrated, including industries such as:

- Distribution
- Professional Services
- Maintenance companies
- Hotel industry
- Manufacturing
- Creative environments
- Facilities management
- Rental companies
- Retail

CyberSource

CyberSource is a global payment gateway, providing secure online payment processing and automation. The company is one of the leading suppliers for online payment and fraud management services, providing services to over 400,000 businesses worldwide. Integrated with Standard ERP, you can use CyberSource solutions to process online payments and ensure payment security.

CyberSource provides secure acceptance of digital payments across multiple channels, with support for comprehensive payment management services. With Standard ERP and CyberSource integration, you can manage your eCommerce credit card payments through one centralized platform.

Integration makes it easier to manage payments and expand your eCommerce to more countries without needing to interface with other payment solutions.

Our integration with CyberSource enables you to reach more customers by offering payments in local currencies.
