- Sales, Purchase and Nominal Ledger

Premium functionality

- Personalised document forms
- Number Series
- Price Lists
- Access Groups
- Multi-Currency
- Integrated Accounting
- Customisable Packages
- Inventory Management
- Send Email

SiteMinder Integration

Whether you're using Expedia, Booking.com, Orbitz, or any of the hundreds of reservation sites, this integration with Standard Hotel offers the tools to manage your reservation and room distribution.

Graphical Overview

Review the day's check-ins and check-outs, view a graphical display of reservations and room availability, use drag and drop to allocate rooms.

Integrated CRM

Create quick and easy marketing campaigns with the customer information stored in the app.

Intuitive

Enjoy the benefits of a quick to set-up and easy to use app.

Control your costs

Expand or scale down at any time.

Mobile

Get a real-time overview of your business while on the go.

Continuous innovation makes Standard Hotel the best choice to accommodate your hospitality business and accounting needs.
