

Hosting

Boost your company's IT flexibility and security with HansaWorld hosting

HansaWorld provides a secure and reliable cloud hosting platform, available to all HansaWorld clients for a monthly subscription.

Benefits

- **Costs** - Only pay for what you use and avoid large capital outlays. The hosted environment adapts to your business requirements, saving any additional or unnecessary expenditures on hardware, software and maintenance.
- **Security** - Privacy and data security being a top priority, backups can be made regularly with full recovery plans in place.
- **Partners** - Our server partners include Amazon and IBM Bluemix.
- **Reliability** - Using a load balanced architecture, with redundancy across data centers, and giving a high level of up-time.
- **Expertise** - Our professional team manages your hosted services and ensures you are getting the most out of your application.
- **Maintenance** - Ongoing maintenance, upgrades and system monitoring is managed by HansaWorld and yourself via MyStandard.
- **Scalability** - Cloud hosting allows for quick subscription to additional functions, enabling users to expand or reduce the system at their pace.
- **Green** - Hosted Cloud computing gives businesses a green boost by reducing waste and energy consumptions.
- **Technology** - You will always have access to the latest software and hardware, all with the latest security patches and compliance requirements.
- **Accessibility** - Access your system from any where, any time, from almost any device.

"Our company upgraded from the Enterprise solution to Standard ERP in the summer of 2015. At the same time, we decided to move from our old on-premise server to the Hansaworld cloud option.

Among the primary reasons were easier cost estimations, budgeting, and no more surprise expenses with IT and server maintenance. We are very happy with today's overall cost, particularly the ease in usability with both hosting and ERP services."

- Michael Hagman, Managing Director, Finnlift
