

Slide 2:

- Experienced: 28 years of continuous development
- Modern: World class technology from Sweden, track record of staying ahead of competitors
- Trusted: More than 550.000 companies successfully run our software in more than 120 countries
- Local: Full compliance with your country's requirements and available in 30 languages
- Global: 19 offices in all major countries and partners worldwide

Slide 3:

- HansaWorld's leading solutions include Standard ERP for medium to larger businesses, Standard Accounts for smaller to medium businesses and Standard CRM for all size businesses.
- Standard ERP provides integrated business process management in a single, elegant application, delivering a unique level of functionality and giving businesses optimum productivity. In-depth, specialized functionality is available for multiple industries. Standard ERP includes all the features and versatility you would expect from a leading ERP solution.
- Standard Accounts is a Free basic accounting solution for small businesses. An extensive range of premium functionality is available on a subscription basis, which means businesses can control their costs and only pay for what they use.

Slide 4:

HansaWorld is a complete mobile solution, with all products available on all major platforms including Mac and iOS. With multi-language and multi-currency capabilities, the products are truly international and suitable for any type or size of business.

- The scalability of the solutions ensure that no business overspends on their ERP or pays for functionality that they don't use. Only subscribe to the functionality your business needs.

- High Performance on slow-speed networks such as the internet provides real-time access to all users, no matter where they are. Standard ERP is one of the few solutions worldwide that is fast enough to run even over GPRS cellphone connections.
- The extensive range of premium functionality available means that businesses can expand their solution to include POS, Webshop, VAT Zones and many other subscriptions without having to reconfigure their systems or be concerned about integration.
- Integrated business intelligence and analytics provides real-time, highly graphical, intuitive and relevant information to all users without the need for consultants to manage the preparation of the data.

Slide 5:

HansaWorld is one of the most experienced SaaS vendors on the market, as recognized for example by winning the a Stevie Awards on several occasions, the most prestigious award in the industry.

The Cloud Awards program celebrates the brightest and the best in Cloud Computing. Open to organizations across the globe, the Cloud Awards is the first and largest recognition platform of its kind.

HansaWorld was a 2016-17 Cloud Awards finalist for the Best Cloud Automation Solution.

The SIIA CODiE Awards have recognized thousands of software, information and education technology companies for achieving excellence since 1986. They are the only peer-recognized program in the content, information, education, and software technology industries, so each CODiE Award win serves as incredible market validation for a product's innovation, vision, and overall industry impact.

HansaWorld was a 2017 CODiE Awards finalist for having the Best Cloud ERP solution.

The Stevie® Awards are the world's premier business awards. They were created in 2002

to honor and generate public recognition of the achievements and positive contributions of

organizations and working professionals worldwide. In short order, the Stevie has become

one of the world's most coveted prizes.

HansaWorld won the Stevie award in 2009 for the Best New Product or Service of the Year - Computer Hardware or Software, the Bronze Stevie award in 2015 for Best New Product or Service of the Year - Software - Mobile Applications and Solutions, and the Bronze Stevie Award in 2017 for Best New Product of the Year Cloud Enterprise Resource Planning (ERP) Solution.
