

One platform for complete learning and training management

Simplifying Learning, Maximising Efficiency

Standard ERP Learning Management System (LMS) is a single platform for easy and efficient learning management. It delivers the requirements from elementary schools to universities, from learning centres to corporations, allowing simple interaction between educators and students. Standard ERP LMS is fully integrated with other modules of SERP allowing maximal efficiency.

Features

- Full accounting and payment management
- Course and grade management
- Scalable with unlimited number of Students and Teachers

Additional Functionality

Standard ERP LMS also offers in-depth functionality for multiple value offerings:

- Online learning
- Assignments and grades
- Automated tests
- Email and SMS
- Customisable WEB environment
- Fast and simple setup
- Intuitive and easy interface
- Self enrolment
- Multi language
- Multi institutions and companies in one database

WEB engine

With using Standard ERP's WEB engine there is no need for integrations or additional software with the added benefit of our fully automated setup.

Highlights

- Control your costs - Expand or scale down at any time by paying per student.
- Integration – Single platform and database for all business processes enables full control and automation without any synchronisation.
- Consistency – Our consistent approach ensures a simple and familiar user experience throughout the software.
- Our commitment – Business software is our sole focus and we are constantly developing to ensure that your product is leading edge - with the latest developments and updates delivered to you easily and painlessly.
