How to Import Demo Data

Standard ERP

You can download Standard ERP that can be used for demo purpose from standardinstall.com. There are 3 scenarios how you can use Demo Data:

A. Using the Default Demo Data

- 1. Run Standard ERP.
- 2. In the 'Welcome to Standard ERP' window, choose the 'Launch Sample' button:

Demo Company?	Launch Sample
Existing Company?	Connect to Existing Company
	Restore from Backup
	Synchronize with Server
New Company?	Cloud Company
	Local Company

The system will import the Demo Data and you will be taken to the 'Login' window.

B. New Installation: Importing Provided Demo Data

- 1. Download the .txt file.
- 2. Save the .TXT file in your Standard ERP application root folder:

- 3. Run the Standard ERP application. The 'Welcome to Standard ERP' window will appear.
- 4. Choose the 'Restore from Backup' button:

Demo Company?	Launch Sample
Existing Company?	Connect to Existing Company
	Restore from Backup
	Synchronize with Server
New Company?	Cloud Company
	Local Company

5. Choose the .txt file from the list that will appear in the 'Import files available' window:.

Select File Manually			O Search
ocioet no manually			S Search
	11/6/19	Setup/UKSTD.TXT	
	11/6/19	Setup/LocalLoginBlock.txt	
UK Forms with Document Defin	efinitions	11/6/19 Setup/UKForms.txt	
	11/6/19	Setup/ItemButtonsBlock.txt	
	11/6/19	Setup/LocalLoginOptBlock.txt	
	11/6/19	Setup/UKACCS1.TXT	
	11/6/19	./DBDEF.TXT	
txt	17/6/19	./CRM Module-Demo-data.TXT	
	11/6/19	./DEFAULT.TXT	

Alternatively, if you didn't save the .TXT file in your Standard ERP application root folder, you can also press the 'Select File Manually' button, and then find the .TXT file on your computer.

Select File Manually			Q Search
	11/6/19	Setup/UKSTD.TXT	
LIK Forms with Dooumor	11/0/19	11/6/10 Sotup/LKEormo.txt	
UK Forms with Document Definition	11/6/10	Sotup/UtomPuttonsPlack tot	
	11/6/19	Setup/LocalLoginOntBlock.txt	
	11/6/19	Setup/UKACCS1.TXT	
	11/6/19	./DBDEF.TXT	
txt 1 11	17/6/19	./CRM Module-Demo-data.TXT	
	11/6/19	./DEFAULT.TXT	

C. Existing Installation: Importing Provided Demo Data

1. Open the Standard ERP folder and remove the .HDB file.

2. Then follow steps 1-5 listed above for new Standard ERP Installations.
